

Crystal Flowers

Phase 5b

I found an amazing flower.

What kind?

It is a mystery.

Let's get the big book of moon plants.

Crystal Pyramid Flower

This plant has not been seen for years. In the past it was found near moon pyramids.

Some people think that it can still be found today but this may just be a myth.

yellow petals

yucky smell

sky blue spiky stem

Is it yellow?

Yes
